

ANURAG MALVIYA

Bhopal, Madhya Pradesh || Phone: +91-7697818236 || Email || LinkedIn || GitHub

Summary

Aspiring MERN stack developer with a strong foundation in MongoDB, Express.js, React.js, and Node.js. Eager to apply my skills in building web applications and contribute to innovative projects.

Education

Oriental College of Technology, Bhopal, MP	Expected Grad. May 2024
B-Tech in Information Technology	CGPA: 8.24
S J L School, Sohagpur, MP	July 2020
12th Grade	Percentage: 88.2%
Model School, Sohagpur, MP	July 2018
10th Grade	Percentage: 86.6%

Technical Skills

Language/Database: HTML, CSS, JavaScript, Cpp, MongoDB, MySQL
Front-End Technologies: ReactJS, Redux, Bootstrap, Tailwind CSS
Backend-End Technologies: NodeJS, ExpressJS, Payment Gateway
Core Subject: DSA, DBMS, OS, CN, Core Java
Softwares & Tools: Git, GitHub, VS Code, PostMan API Platform.

Projects

Front-End Projects

- **Weather Application:** The application of science and technology to predict the conditions of the atmosphere for a given location and time. The main objective of this weather application project is to develop a user-friendly and reliable mobile/desktop application that provides real-time and accurate weather information. The application aims to offer a seamless and intuitive interface for users to access current weather conditions, forecasts, and related data for their specific location or any desired location worldwide. [Link](#)
- **Password Generator:** The primary objective of this password generator project is to develop a secure and robust tool that generates complex and unique passwords for enhanced digital security. The application aims to provide users with a simple and intuitive interface to create strong, random passwords that meet industry best practices for password strength. [Link](#)

Full Stack MERN Project

- **CodePlay Edtech Application:** MERN-based web app the primary objective of this project is to create a dynamic and accessible digital platform that facilitates effective and engaging educational experiences. Through the integration of interactive content, user-friendly interfaces, and personalized learning pathways, the project aims to empower learners to acquire, retain, and apply knowledge in a flexible and convenient online environment. Additionally, the project seeks to enhance collaboration among participants, foster a sense of community, and leverage technology to optimize the overall learning experience. [Link](#)

Achievement

- By showcasing my CodeChef achievements, I aim to bring a strong foundation in algorithmic thinking, precision in coding, and a passion for tackling complex problems to contribute effectively to coding-centric roles. [Link](#)
- "Published Two Articles on GeeksforGeeks"- Demonstrated expertise in technology by contributing two well-received articles to GeeksforGeeks, a renowned online platform for computer science and technology enthusiasts. [Link](#)
